Project Name	Global Malnutrition Trends: A Power BI Analysis (1983-2019)
Maximum Marks	5 Marks

Creating an effective dashboard involves thoughtful design to ensure that the presented information is clear, relevant, and easily understandable for the intended audience. Here are some key principles and best practices for dashboard design
Here are five potential outcomes from the dashboard image provided:

1. **Total U5 Population**: There are total number of 140 children under five years of age.

2. **Survey Sample**: The sum of survey samples is 317M.

3. **Relation between Income and Stunning rates:** Line and Stacked column chart clearly shows that higher income classifications corresponds to lower average stunning rates..

4. **Sum of Overweight**: The line chart shoes that Kuwait has the highest sum of overweight individuals.

5. **Highest number of Overweight:** The Ribbon chart describes highest number of overweight is observed in second income classification level.
